

Super lux™ - INTRODUCING QUALITY ALUMINIUM

Super Doors cc has introduced a quality aluminium garage door known as Super Lux™. The Super Lux™ garage door is pleasing and perfect to modernize any home.

The full aluminium construction is durable, strong and lightweight. This is the preferred choice because of it being low maintenance. Designed to withstand extreme weather conditions found in coastal regions, as well as giving peace of mind as a result of the rust proof and corrosion-resistant properties.

STRONG

**QUIET & SMOOTH
OPERATION**

DURABLE

**PINCH
RESISTANT**

**INTERLOCKING
PANELS**

LIGHTWEIGHT

Super lux™ - COLOUR OPTIONS

The Super Lux™ product has extruded aluminium slats making up a panel that allows for a quiet and smooth operation. A unique safety feature has been incorporated with the advent of the pinch-resistant panels.

The higher than normal overlapping joints on the interlocking panels prevents dust and rain penetrating into the building. The Super Lux™ garage door is available in White, Bronze, Brown, Charcoal, Cape Oak and any other colour that has been powder coated.
